RADU IUONAC

+10 years in Software Development
+6 years in Architecture and Design
+6 years in Team Leading/Project Management

PERSONAL INFORMATION

Date / Place of birth	13th December 1988 , Dej
Address	3, Aurel Vlaicu Street, Cluj-Napoca, Romania
Telephone number	0765 387 275
Email	radu.iuonac@gmail.com

EXPERIENCE

SOFTWARE DEVELOPER, COGNIZANT SOFTVISION, CJ   February 2021 – Present

Project #1	
Description	Developed a feature for a financial institution based in US that would allow a user to make easy payments with cards online. Worked closely with business and other teams that were spread all around the globe.
Technologies	Spring, Java, REST, Cucumber, Mockito, Jenkins, GIT
Role	Software Developer, Team Leader
Attributes	Implementation, Code Review, Estimation, Planning, Meetings with customer

SOFTWARE DEVELOPER, FORTECH, CJ   October 2010 – February 2021

Project #1	
Description	Project serves the commercial passenger car industry business to document the data of the product development process in the areas of Development, Production, Sales and After sales.
Technologies	OSGI, RCP, SWT, Java Swing, Ant
Role	Software Developer, Team Leader
Attributes	Implementation, Code Review, Estimation, Planning, Meetings with customer

Project #2	

Description	Project offers the documentation of factories involved in manufacturing of cars.
Technologies	Hibernate, JSF, Websphere
Role	Software Developer

Project #3	
Description	Prototype application using UWP for Windows mobile devices.
Technologies	C#, UWP, Microservices, Docker, JSON
Role	Software Developer

Project #4	
Description	Delivery management system for programs developed on the mainframe.
Technologies	REST, Swagger, JSON, JUnit, JPA, Eclipselink, Angular6, Jetty
Role	Software Developer

Project #5	
Description	Creating the networking module for an Android based application that communicated with a REST server.
Technologies	Android, Retrofit2, JUnit, Python
Role	Software Developer

Project #6	
Description	Application used for inspecting radar performance and history for a radar site.
Technologies	REST, Swagger, JSON, JUnit, JPA, Spring, Android
Role	Software Developer

INTERNSHIP, AROBS, CJ July 2009

Project #1	
Description	I had to develop an application for the U3 flash drive. The application was able to create and store appointments for a user.
Technologies	Delphi
Role	Software Developer

EXTRA SCHOLAR ACTIVITY

During college and university I participated in several programming competitions and have obtained several prizes.

- UBBOTS 2010

- Imagine Cup Algorithm Competition

-InfoArena , ACM Timus (online judge programming competions)

EDUCATION

BABES BOLYAI UNIVERSITY - CLUJ NAPOCA 2007 – 2010

B.S. in Computer Science

"ANDREI MURESANU" NATIONAL COLLEGE - DEJ   2003 – 2007

Mathematics and Computer science class

SKILLS

Programming tehcnologies	Java (Swing, SWT, OSGi, RCP, JSF, Hibernate, REST), C#, C/C++, PHP, Python, javascript, HTML, CSS
Tools	Eclipse IDE, Visual Studio, VS Code JIRA, Microsoft Office Suite (including Microsoft Project), Polarion
Foreign Languages	English (advanced), German(beginner), French(beginner)
Soft skills	Strong work ethic, positive attitude, good communication skills, problem

	solving skills, fast adaptability to changes, true team player, can motivate a team, team builder, give timely feedback
Leading skills	Currently team leader for two teams on two similar projects. Offer coaching mentoring
Other	Java interviewer (mostly junior and mid positions), Involved in organization of Team Buildings In my free time I started developing some Android applications as well as more recently I started developing a React.JS app.
